Web Technologies: JavaScript, HTML/CSS, TypeScript, React.js, Next.js, TailwindCSS, Vue.js, Nuxt.js, PHP, C#, Python

AI: Claude Code, GitHub Copilot, ChatGPT CodeX, Framer, OpenClaw, Grok, Cursor, WatsonX, Gemini

Languages: English, Cantonese, Vietnamese

Experience

Vero Ventures | Full-stack Developer Intern | [G](#) [T](#)

Jan 2026 – Apr 2026

- Co-built a multi-tenant InsurTech SaaS platform using **Next.js 14 + TypeScript**, improving scalability and delivery speed by ~40% through a modular architecture and production deployment via **Vercel** CI/CD and **Docker**.
- Designed UI/UX flows and visual interfaces for insurance breakdown dashboards using **Figma**, **React**, and **Recharts**, improving client clarity and usability.

Hongik University | Graphic Design Volunteer

Feb 2023 – Jun 2023

- Designed promotional materials and event visuals for campus activities during the exchange program, using **Adobe Illustrator** and **Photoshop** to support student-led initiatives.
- Collaborated with local student designers on layout and branding work, gaining exposure to Korean design conventions and typography practices.

FPT Software | Junior Graphic Designer

Apr 2022 – May 2023

- Designed e-magazines and branded merch (apparel, tote bags, stickers) for **FPT University** events using **Adobe InDesign**, **Illustrator**, and **Photoshop**, elevating production quality across student campaigns.
- Created UI/UX designs and mockups for internal and promotional web/app interfaces using **Figma** and **Adobe XD**, improving usability and aligning visual design with brand standards.
- Produced banners, posters, and digital ads for university recruitment campaigns and corporate events, designed in **Adobe Illustrator** and **Photoshop**, boosting event and campaign visibility.
- Developed marketing collateral and event branding (signage, social media graphics, presentation decks) for company-wide events at **FPT Software**, supporting consistent brand presence at internal and public events.

Projects

Landly | Full-stack Developer | [G](#) [T](#)

Jan 2026 – Apr 2026

- Built a freemium AI SaaS platform that tailors resumes to job descriptions — users paste a resume and job posting, and the app rewrites bullets, generates a cover letter, and exports a polished PDF, cutting manual tailoring time by ~70%.
- Designed the UI/UX and brand visuals using **Figma**, then engineered the **Next.js/TypeScript** front end and billing system with **Stripe** and **Clerk**.

Tandem | Full-stack Developer | [G](#) [T](#)

Aug 2025 – Dec 2025

- Co-developed a scheduling platform for trades families, reducing conflicts and coordination effort by ~60% using **Next.js**, **React**, and **TailwindCSS**.
- Designed the visual identity and responsive UI in **Figma**, including a unified calendar view aggregating shifts, childcare, and reminders.

Education

British Columbia Institute of Technology | Full-stack Web Development | Diploma, GPA: 3.3

Sep 2024 – May 2026

FPT University | Graphic Design | Bachelor's Degree, GPA: 3.2

Oct 2021 – Dec 2023

Hongik University | Graphic Design | Exchange Program, GPA: 3.8

Feb 2023 – Jun 2023
